

Project Management Methodologies

Clear Lead is an experience-based professional services firm providing consulting, solutions and project management services to government and corporate organisations. Clear Lead has offices in Sydney, Canberra, Melbourne and Brisbane.

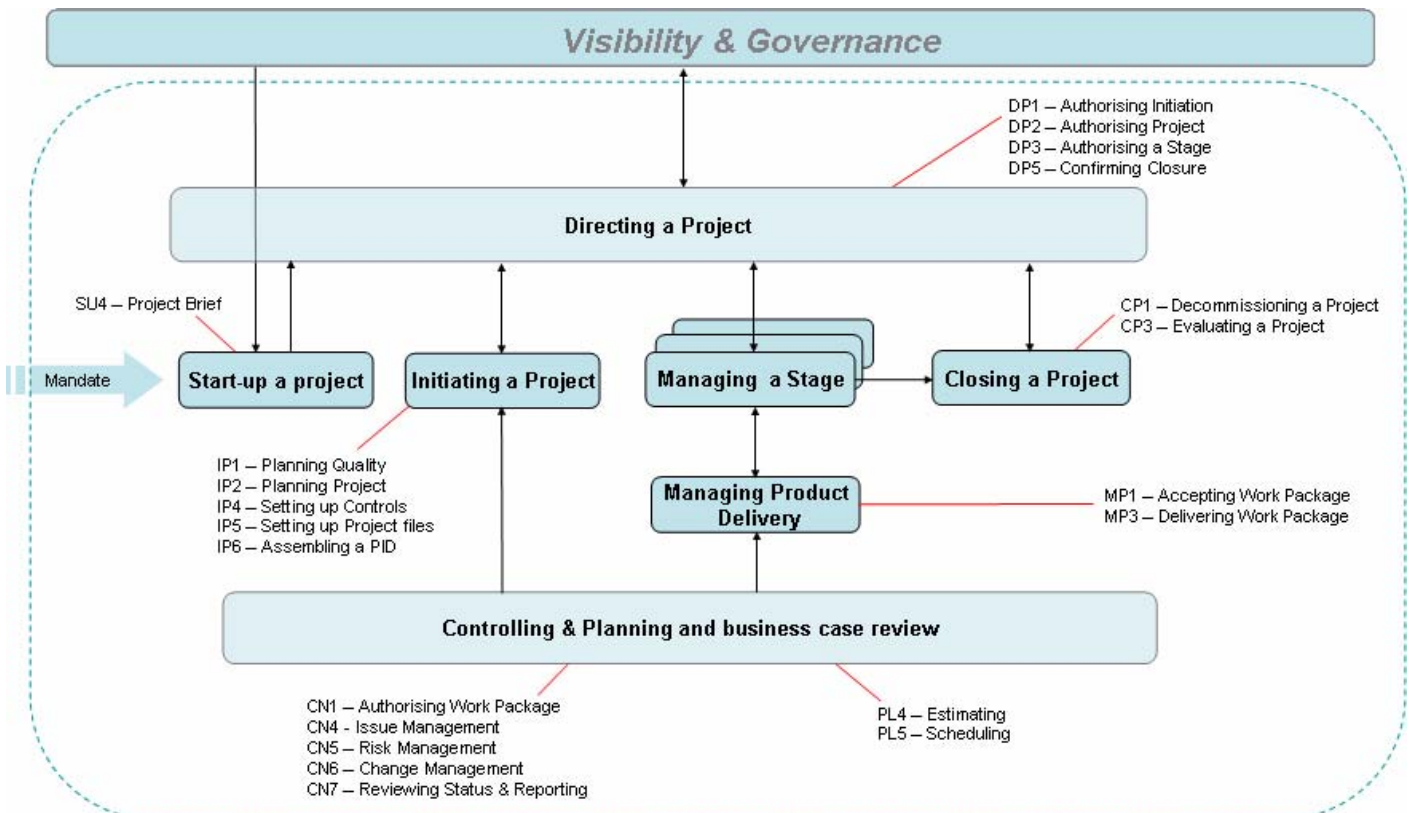

We base our project management on two leading industry methodologies:

- Project Management Body of Knowledge (PMBok)
- Projects IN Controlled Environments v2 (PRINCE2)

To support the methodologies, Clear Lead has developed tools, templates, techniques, training materials, processes, workflows, and practical examples.

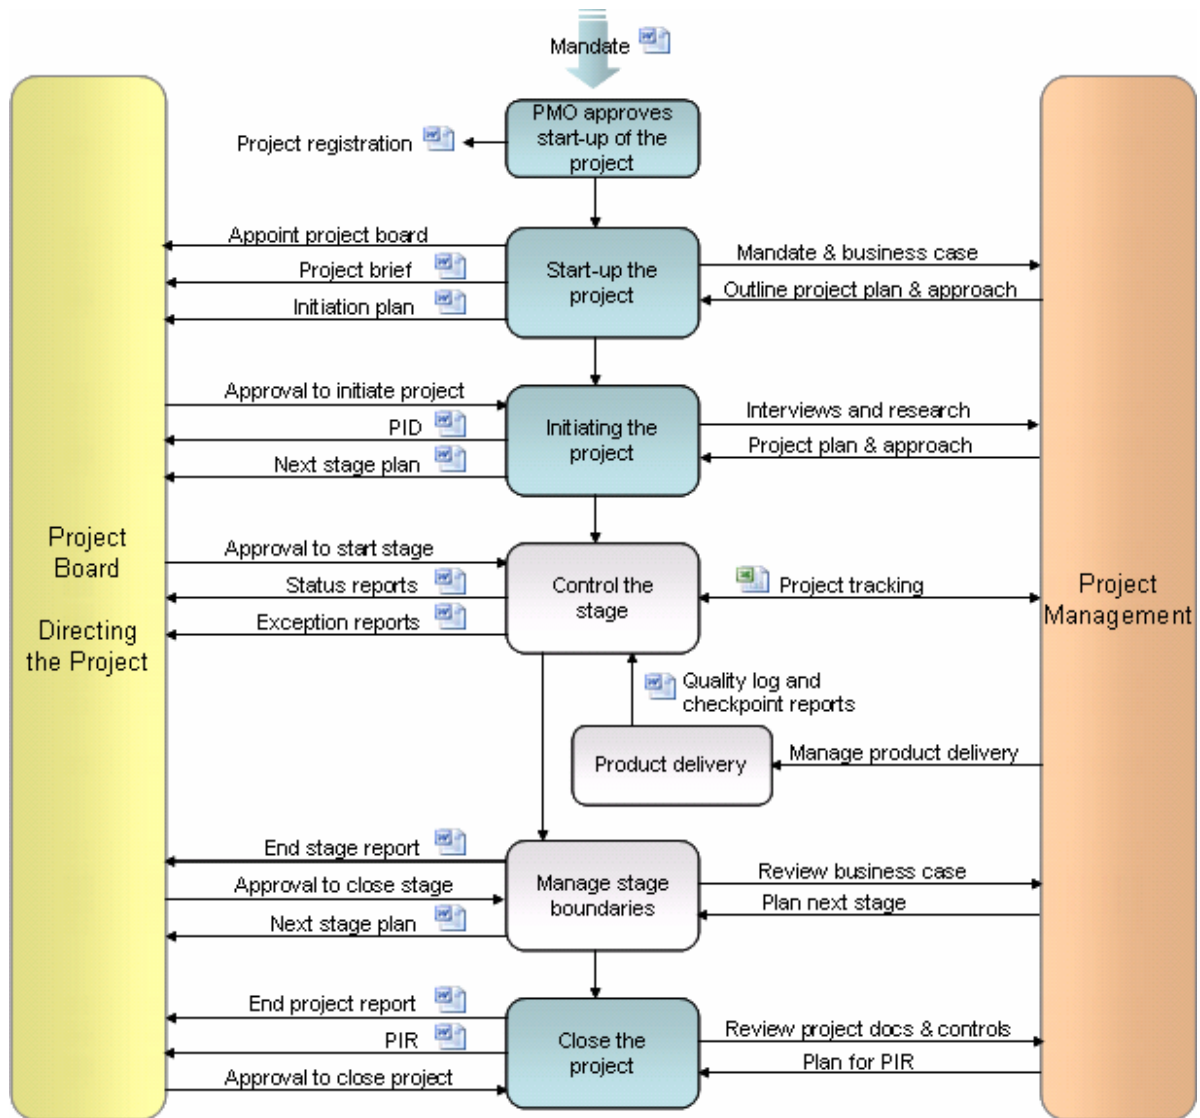

Methodology Overview

Clear Lead can use a client's existing project management methodology, apply an industry standard approach, or develop and tailor a methodology specifically for an organisation. An example of a project management methodology based on PRINCE2 is shown below:

Complex Project Process Workflow

An example of process workflow for a complex project is shown below:
